WANTED HEARD TO RUN FOR CONGRESS

AN ECHO FROM THE CONGRESSIONAL ELECTION OF LAST YEAR.

BUT HE DIDN'T NIBBLE THE BAIT

A Friend of the Judge From This City Was Sent to Sound Him.

Many will be surprised to learn that Judge O. E. Heard of Freeport was urged to become a candidate for the republican nomination for congress on the republican ticket against Col. Frank O. Lowden, something over a year ago.

A reporter for the Freeport Bulletin hearing this story the other day set about to investigate the matter, and upon meeting the judge inquired if there was any truth in the statement. Judge Heard smiled, and said that he had been approached about eighteen months ago, but at that time he was not aware of the intentions of the people who were urging his candidacy.

This matter has never appeared in the public prints and is of unusual interest for more than one reason, and the story that Judge Heard relates has been kept a guarded secret ever since. Judge Heard in answer to a number of questions relative to his connection with the matter said that the movement was backed by the socialists, although he had no idea of the representation that was seeking to place him in the field against Col. Lowden.

The members of the socialist party, it appears from what Judge Heard has since learned, desired to defeat the congressional aspirations of Col. Lowden and as they knew that a certain gentleman at Dixon was on intimate terms with him they choose him to approach Judge Heard and "sound me out," as the judge himself expressed it.

In relating what took place between the Dixon gentleman and himself, Judge Heard said:

"I was greatly surprised to have anyone approach me with a view of obtaining my views on the congressional race in this district, as I had not given the matter the slightest attention. After we had conversed to some extent on the situation, my friend, who had been delegated to sound me out, asked me abruptly how I would like to become a candidate for the nomination against Col. Lowden. I frankly told him that I would not consider the matter for a moment even if I were not a member of the circuit bench, and would not accept a certificate of election if it were offered to me. This answer was apparently taken as final, for W. P. Landon of Rochelle afterward entered the contest for the nomination against Col. Lowden.

"I dismissed the matter entirely from my mind but after election my Dixon friend came to me again and asked me if I remembered the time he had approached me to enter the contest against Col. Lowden for the nomination. I told him that I recalled the incident. He then unbosomed himself to me, saying that he had been delegated to approach me by certain members of the socialist party who desired to defeat Col. Lowden on account of his capitalistic interests. He then informed me that if I had consented to run I would have had a large sum of money at my disposal and all the campaign literature that I wanted would be given me to swamp the voters.

"My friend also told me that this program had been mapped out by the socialists for the reason that they saw the futility of nominating men on their ticket to be mown down at the election, and by getting a representative in congress in some way and from some place, no matter where, they would accomplish the desired result. I understand that they had Speaker Cannon, Congressman Littlefield of Maine, Dazzell of Pennsylvania, Grosvenor of Ohio and other congressmen marked for decapitation. It is my understanding that they succeeded in Ohio and now have a representative in congress. I would not be surprised if the same policy should be adopted again at the next campaign."

This announcement from Judge Heard, even though it is belated, contains information that has not been generally known before. At any rate the judge says it will be a cold day when any one succeeds in getting him to run for congress.

NEARLY 700 ATTENDED THE FAIR

GOOD PROGRAM ENJOYED LAST NIGHT—SATURDAY IS THE CLOSING NIGHT.

Very nearly 700 people attended the Catholic fair last night. Blue coupon number 130 was the one to draw the sack of flour.

During the evening the following program was pleasingly rendered by the young ladies:

Vocal Duet..Helen and Emily Clark
Recitation.....Miss Shaner
Vocal Solo...Miss Marian Hennessy
Piano Duet..Marie and Helen Gorham
Vocal Solo....Miss Nellie McIntyre

The crowded hall was a deserved appreciation of the Lady Foresters zeal and everyone granted that they were A 1 entertainers.

Tonight the fair will continue as usual and will end on Saturday evening. Saturday evening the young ladies' diamond ring contest will close and the ring will be awarded to the winner. All articles will be awarded, so those interested should be present.

Supper will be served at the hall tomorrow night by the unmarried ladies.

NO TOBACCO FOR THE INSANE

WEED IS PROHIBITED INMATES OF ILLINOIS ASYLUM AT PEORIA.

Peoria, Ill., Nov. 8—A new order prohibiting the use of tobacco, either for smoking or chewing, has been promulgated by Dr. George A. Zeller, superintendent of the insane asylum at this place. Dr. Zeller, himself an inveterate smoker, and his staff of physicians have eschewed the use of the weed while on duty, and the violations on the part of employes will be summarily dealt with.

It has cost the state on an average $200 a month for the supply of tobacco for the institution and it is believed that this sum can be applied elsewhere with much better results.

Fully 400 patients in the asylum have been in the habit of using tobacco. So far as known only two women, both advanced in age, are addicted to the use of tobacco.

MRS. FRANK PALMER DIED TODAY

DEATH RATHER UNEXPECTED AND WAS THE RESULT OF HEART TROUBLE

Mrs. Carrie E. Palmer, wife of Frank Palmer, 806 Galena avenue, died this morning at 11:40 o'clock after an illness extending over a period of one year. Deceased had been critically ill for about ten days and death came in rather unexpected fashion, as the lady was thought to be out of danger. Cause of her death was heart failure.

Deceased was born in Walnut, Ill., April 18 ,1856, and hence was 51 years, 6 months and 28 days old. She was a member of the Royal Neighbors and for 25 years had been a member of the Methodist church.

Beside her husband, three children are left to mourn her loss. They are J. Frank Palmer and Miss Inez Palmer of Dixon, and Homer W. Palmer of Albert Lea, Minn.

The funeral services will be held Sunday afternoon at two o'clock at the late home and interment will be made at Oakwood.

AUTO SALESMAN HERE.

H. R. Coit, special salesman for the Chicago Carriage & Coach company of Chicago, was here today on business. He was accompanied by his wife. Mr. and Mrs. Coit made the trip in an automobile. They are on their way to Sterling for a few days' visit with friends. Mr. Coit is selling automobiles for his company. Since he left Chicago he has sold two cars.

Mr. and Mrs. John Lamb will return to Dixon tomorrow from Chicago, where they have been on a wedding trip.

MOTION OVER-RULED FOR A NEW TRIAL

IN THE CASE OF WATSON VS. POWER AND LIGHTING COMPANY.

PLANTIFF MAY APPEAL THE CASE

Action Entered by Judge Farrand In Other Cases in Circuit Court.

Judge Farrand overruled the motion for a new trial in the case of Watson vs. Dixon Power and Lighting company et al. An appeal is being considered by the plaintiff in the case.

What the Docket Shows.

Edward Kreiter et al vs. Charles E. Ives, trespass on the case. Leave given plaintiff to file an amended declaration, same to be filed before the first day of the January term.

Anna Dinges vs Paul Halbmaier et al, bill to set aside will. Motion for a new trial being argued this afternoon.

Lydia A. Cole vs. Jesse Cole et al, dower. Answer of guardian ad litem filed and replication thereto filed. All adult defendants called and efaulted for want of answer. Cause heard and decree appointing commissioners to assign dower granted.

Clarence H. Stackpole vs. Frank O. Schmucker, bill. On motion of com plainant leave granted him to withdraw from files certain exhibits.

SOUTH FOR THE WINTER.

Mr. and Mrs. J. O. Trippeer of 327 Chamberlain street, who have been conducting the branch store for the Dixon Grocery company, start tomorrow morning for Polo, where they will visit for a couple of weeks before going South for the winter. They expect to spend most of the winter in Houston, San Antonio and Galveston, Texas. They will return early in the spring and again take charge of the branch store on the North Side.

W. U. Baker is looking after the store for them while they are absent on tour. An especially pleasing feature will be the rendering by Mr. Boone of a number of his sweet songs in his own incomparable style. There is an abundance of good and wholesome fun and some clever character drawing.

PRESBYTERIAN CHURCH.

The themes at the Presbyterian church for Sunday are, morning, "Behold the Lamb of God:" evening, "Even so Come Lord Jesus. Yea, Come Quickly."

The Sabbath school follows the church service at 12 m. This is the only Sabbath school in Dixon that comes after the service and ought to accommodate those who cannot get to the schools at an earlier hour. All such are invited. Endeavor at 6:45 p. m., leader, W. S. Leslie. Topic, "Greed for Gold." Everybody welcome to all services, especially strangers and the poor.

TAFT TO CIRCLE GLOBE.

Manila, Nov. 8—Special—Secretary Taft leaves today for Vladivostok, thence taking the Trans-Siberian railway to Europe enroute home.

LIQUOR INTERESTS BUSY.

Springfield, Ill., Nov. 8—Special—The brewery and liquor interests of central Illinois are preparing to bring a test case against the validity of the local option law which sixteen counties adopted at Tuesday's election.

I. C. CASE NOV. 25.

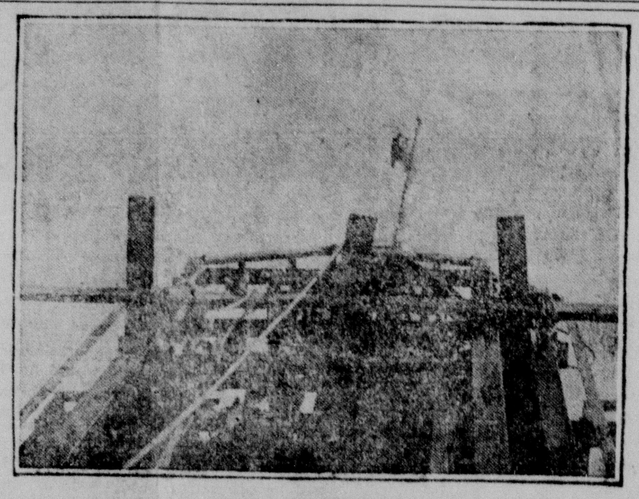
Chicago, Nov. Nov. 8—Special—The hearing in the Illinois Central proxy case has been set for November 25th.

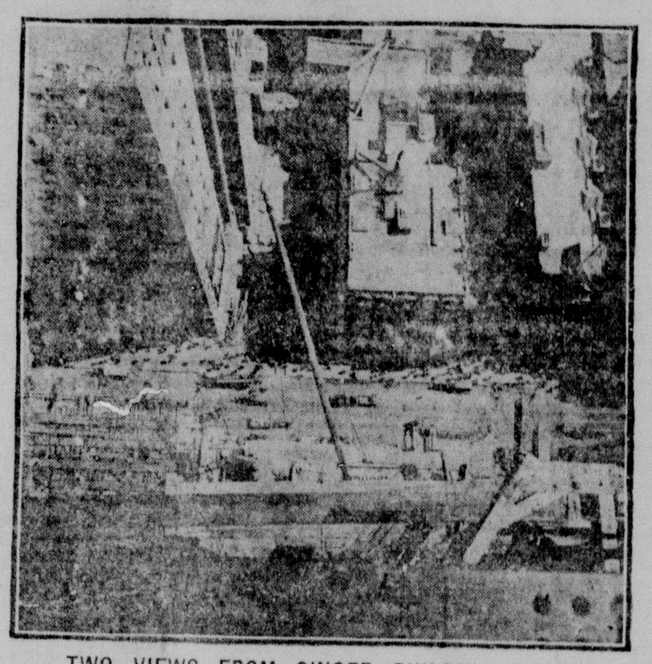
AMBASSADOR TO BERLIN.

Washington, Nov. 8—Special—David Jaque Hill, minister to the Netherlands, has been named as successor to Ambassador Tower at Berlin.

AT MORRISON MONDAY.

A card from Fred Clarke informs us that the New Minister will be at Morrison next Monday evening. On Wednesday the company played at Valparaiso ,Ind., and last night at Joliet.





TWO VIEWS FROM SINGER BUILDING TOWER.

Broadway from the top of the Singer building, now under construction, presents a curious appearance. From the Singer tower, over 600 feet above the street level, Broadway looks quite otherwise than broad, and cross streets look like alleys. A curious photograph of the tower and flagstaff from a point immediately beneath them shows Ernest Capelle, a steeplejack, climbing the flagstaff.

WALKED TO STERLING ON A WAGER

GORDON UTLEY MADE THE DISTANCE UNDER TWO HOURS AND THIRTY MINUTES.

TIME KEEPERS WENT WITH HIM

Left Dixon at 8:30 This Morning and Finished Twelve Miles in Good Form.

When W. C. Jones made his bet that he could walk from Dixon to Sterling in two hours and fifteen minutes, he started something. This morning the first time test over the course was taken by Gordon Utley, who engaged to walk from the city limits of Dixon to the city limits of Sterling in 2:30. Accompanied by James E. Drew and Samuel N. Watson, who rode in a buggy, Utley started from the Illinois Central viaduct in North Dixon at 8:30 o'clock and finished at the Galt House in Sterling at 11:09, the time elapsed for the distance being 2:39. The time to the city limits of Sterling was a shade better than 2:30, and in view of that fact the young man recovered a wager on the test.

Utley returned to this city this afternoon and stated that the elapsed time for the trip from the west limits of Dixon to the east limits of Sterling was 2:17, the trip to the Galt House being taken at an easy pace.

TRANSACTIONS IN THE PROBATE COURT

Frank Beede is appointed administrator, under bond for $1,400, of the estate of Alfred A. Beede.

Letters testamentary have been issued to Elizabeth C. Lennox, executrix named in the will of James Lennox. Bond, $1,800.

Martin J. Lawman is appointed administrator of the estate of Cleveland H. Propst. Bond, $3,000.

CATTLE SALE.

Collins Dysart will hold a sale of thoroughbred cattle at his place, south of Nachusa, on November 20.

WILL IMPROVE STREET CAR SERVICE

STERLING, DIXON AND EASTERN PREPARES TO INSTALL A BLOCK SYSTEM.

LESS WAITING AT THE SWITCHES

Will Facilitate Movement of Cars and Especially Help City Schedules.

The Sterling, Dixon and Eastern electric line will be equipped with an effective block system as soon as the material can be put into place for the operation of the idea, according to Manager Kirk of the line.

The idea of the block system is one of Mr. Kirk's and has been under contemplation by him since he first came here. By the use of the system the tedious waiting on the various switches along the lie, both in the cities and the country will be done away with, and the cars will be enabled to move more freely than heretofore.

In operation the signals at each switch will be to record the passage of any car and will set a corresponding signal on other switches against other cars, thereby leaving a clear track for each car after leaving a switch. In case a car comes to a switch and finds the approaching car delayed, the first car may, by throwing the block, close the track to the other car and move to the next switch. The system will tend to relieve unnecessary and tiresome waiting on switches and will result in an improved car service throughout.

NEW STREET LIGHT.

A new corner light of the incandescent variety has been placed on the corner of North Dement avenue and East McKinney street.

INSTALL NEW COG-WHEEL.

Repairs have been instituted on one of the water wheels at the power house of the Lee County Lighting company, a new cog-wheel being put into place on the big turbine.

PRISM GLASS TO LIGHT FACTORY

THE RODESCH PIANO PLAYER FACTORY TO BE WELL LIGHTED.

WILL THROW LIGHT TO THE REAR

Finishing Touches Being Put on the Building and Operations Will Be Commenced Soon.

Of the sevety-eight panes of prism glass which are to constitute the front of the new Rodesch Piano Player factory building on River street, all but six have been put into place, and only the lack of material is delaying the completion of the job. The glass that has been put into place is effective in the greatest degree and the factory building will be equipped with an excellent lighting system.

The front lights serve to light each of the three large rooms very effectively, there being no provision for day lighting, while the basement lights serve to throw the illumination the entire length of the basement. The machinery has all been installed in the building and workmen are at work putting on the finishing touches in the arrangements. It will be perhaps thirty days before the plant is put into operation.

YOUNG MADE MAJ. GENERAL.

Brigadier General Edw. C. Young of Chicago, commanding the Fourth brigade, who was appointed major general of the entire division of the Illinois National Guard is well known in this city by the local soldiers and veterans of the Spanish-American war. General Young succeeds Major General George M. Moulton, recently retired. The position of major general was created by the present general assembly, which last winter enacted a law organizing the militia into a divisional formation with two major generals. One of these is Adjutant General Scott, who ranks as a major general under the present system.

CONGREGATIONAL CHURCH.

The West Side Congregational church is the most homelike church in Dixon. It is located one block southwest of Dixon college. Come and sample us on next Sunday. Rev. Thomas Porter will deliver the sermon at 11 a. m., from the subject, "Transfiguration," and at 7:30 p. m. he will speak on "The Great Invitation."

Our young people are preparing special music for the occasion and it is earnestly hoped that a large number of people will attend .

The Christian Endeavorers are doing splendid work for Christ and the church and young men and women should plan to be at the 6:30 meeting.

Parents and children will receive a cordial welcome into our Sunday school at 9:45 a. m. Everybody be on time.

Robert G. Moore, Pastor.

ST. PAUL'S LUTHERAN CHURCH.

Preaching services in St. Paul's Lutheran church Sunday morning at 11 o'clock. Subject: "Heels Laden With Resentment." Evening service at 7:30. Subject: "Profanity." The second commandment of the decalogue will be considered, with the situation relating to the spirit of reverence and irreverence of the times, the second discourse of the series. A most cordial invitation is extended to all.

Senior Christian Endeavor society meeting at 6:30 p. m. Junior C. E. at 4 p. m.

TWELVE CONVERTS AT REVIVAL MEETINGS

The revival meetings at the Grace church, North Side, are producing excellent results. Twelve persons have been converted. Last night there were many present at the service and Rev. Rutherford delivered an excellent sermon. The singing, under the leadership of Mr. Lehman was very enthusiastic.

Tonight Mr. Lehman will sing and Rr. S. S. Cryor will preach. A large audience is expected.

MET DIXONITES IN THE NORTHWEST

A. C. WARNER RETURNS FROM A MONTH'S STAY IN NORTH DAKOTA.

HE ATTENDED STATE LAND SALE

Notes Steady Increase in Land Values—Hunters Bag Large Numbers of Geese.

Attorney A. G. Warner has returned from a trip to North Dakota. He visited the wheat district in the Red River valley, and the territory west of Grand Forks, north of Devil's Lake, and west to Bottineau county.

The wheat crop is light, averaging about ten bushels to the acre. Prices were very satisfactory until the recent financial difficulties which have suspended business in the purchase of grain.

Mr. Warner attended the state land sale in Ramsey county at Devil's Lake, at which about twenty thousand acres of land were sold at public auction. Prices were firm and land sold higher than expected, considering the difficulties in the money situation. The average appraisement of the lands sold was about $12 per acre, and many tracts sold as high as $20 per acre. Mr. Warner purchased two quarter sections at the sale. Notwithstanding the lightness of the crop, the country seems to be in a satisfactory financial condition, and the farmers have not lost faith in the steady rise of the land values.

At Devil's Lake Mr. Warner met James Miller, who formerly lived at Dixon, and who was at one time in the employ of A. U. Thomas in the plumbing business. Mr. Miller is engaged in the laundry business at Devil's Lake. Mr. Warner sojourned for a few days at the Orvis House in Church's Ferry. This hotel is conducted by George Orvis, who is a near relative of the late F. K. Orvis. George Orvis resided at Dixon many years ago for a year or more and is always glad to welcome Dixon people at his hotel.

Church's Ferry is a great resort for goose hunters. Several hundred geese were killed there in the last week of October. Thirty-five thousand and loaded shells were sold there inside of ten days. Hunters swarmed in from all over the country, with the result that in a few days the geese were driven south by the overwhelming fusilade. A party, which included George E. Duis of Grand Forks and Blinn Smith of Dixon, were early on the ground and had great success.

Mr. Warner joined the party for a short time before the hunting was over.

The fall weather in the Northwest has been very favoravle for farm work. Farmers were still plowing on Nov. 6th and the weather has been very similar to that enjoyed in Illinois.

Chicago, Nov. 7—Fair today, probably becoming unsettled on Friday; moderate temperature.

Has a Record to be Proud of

DYSART'S ANGUS DISPERSION.

There are few Angus breeders who have achieved more note in the production of prize winning cattle than Collins Dysart, Nachusa, Ill. From this herd came the champion Vala, Empress Damask and other noted winners, while countless numbers have been produced that would have been winners had they ever been shown. Mr. Dysart has rented his farm and will remove to Dixon, Ill., and as a consequence his entire herd will be offered at public sale at the farm south of Nachusa Wednesday, Nov. 20. Mr. Dysart firmly believes in the superiority of Aberdeen-Angus cattle over all other breeds. In his catalogue announcement he says: "As much as I am interested in this great breed, this dispersion that I now announce is absolute, and is not for the purpose of cashing in now and going back in the business later. While I regret it very much, I may not again breed pure bred cattle. I have bred practically all the cattle that I am now offering. I am in no sense a speculator, but have improved and built up a herd that I believe is second to none in the country. I have succeeded in producing some of the most famous champions from several of the families that I include, and the tabulations that follow will reveal the fact that the richest blood in the breed is catalogued, and the result is individuality, representing the best type and characteristics of the breed. I have followed no fads or fancies, but have been in the practical business of producing the bes

There are nearly a hudred head catalogued for this sale and forty of them are the get of Emulus of Keller Park, one of the greatest Trojan-Erica sires of the age. There are also a number of his granddaughters and great granddaughters catalogued and females not related are in calf to him, so that practically every animal catalogued may be said to contain the blood of this noted sire, who is also included in the sale. His get are bred to Scottish Stamp, one of the best young bulls in breeding service and a strong individual. He is of the champion-producing Drumin Lucy family, which, in the hands of Mr. Estill, the breeder of his dam, furnished him more champions than any other strain in his herd. He was got by the blackbird-topped Queen Mother bull Scottish Boy, a grandson of the famous champion Moon Eclipse. This sale should attract wide attention and a liberal patronage. The initial announcement appears today on this page and catalogues can be secured by addressing either Collins Dysart, Nachusa, Ill., or W. C. McGavock, manager, Springfield, Ill. Earthquake In the Desert.

Hans Doring writes of a singular experience in an earthquake while traveling in the desert of Gobi: "I had just dropped off to sleep when I woke up with a feeling of great anxiety, which I could not explain other than that I had a presentiment that some great danger was impending. It was explained soon enough. All of a sudden while I was still wondering whence my sudden fear came I heard a loud noise beneath the ground which sounded as if a subterranean express was approaching. Nearer and nearer it came, and before I could get off the bed on which I had been sleeping the compound and the whole hamlet were shaken by an earthquake. I thought that my last hour had come and expected to see the walls collapse. The rafters of the roof rattled on the beams, and the whole house shook. If the house had been higher it would have collapsed, but the walls, not quite ten feet high, are built of mud, with an elastic framework of wood to carry the roof. It appears that these houses are built to resist earthquakes, their simplicity and elasticity saving them from destruction."

Economical.

"I believe I have found the prize woman economist," said an east side baker the other day. "She has just moved into my neighborhood, and I understand the family is by no means poor. The wife came into my place Monday and bought a dozen small cakes. I supposed they were for tea that evening. Imagine my astonishment when she came back Friday evening carrying a small paper sack, from the depths of which she carefully drew forth three of the identical cakes I had sold her four days before. Nodding her head toward them, as she set them down on the counter before me, she said sweetly, 'Won't you please exchange these for some fresh ones?' at the same time indicating a batch that I had brought from the oven not half an hour before."

"Well, what did you do?" asked the baker's sympathetic friend.

"Do? I gave her three of the fresh ones. I think I must have been mesmerized. Next thing I know she will be bringing back the bread crusts to have new loaves put inside them."—Columbus Dispatch.

Women Avoid Operations

MISS ROSE MOORE

When a woman suffering from female trouble is told that an operation is necessary, it, of course, frightens her.

The very thought of the hospital, the operating table and the knife strikes terror to her heart.

It is quite true that these troubles may reach a stage where an operation is the only resource, but a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after an operation has been decided upon as the only cure. The strongest and most grateful statements possible to make come from women who by taking

Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs, have escaped serious operations, as evidenced by Miss Rose Moore's case, of 307 W. 26th St., N.Y. She writes:—

Dear Mrs. Pinkham:—"Lydia E. Pinkham's Vegetable Compound has cured me of the very worst form of female trouble and I wish to express to you my deepest gratitude. I suffered intensely for two years so that I was unable to attend to my duties and was a burden to my family. I doctored and doctored with only temporary relief and constantly objecting to an operation which I was advised to undergo. I decided to try Lydia E. Pinkham's Vegetable Compound; it cured me of the terrible trouble and I am now in better health than I have been for many years."

This and other such cases should encourage every woman to try Lydia E. Pinkham's Vegetable Compound before she submits to an operation.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised.

PLEASED WITH THE ELECTIONS

Secretary Taft Gratified Over the Result in Kentucky and Cincinnati, Especially.

Manila, Nov. 8.—Secretary Taft expressed great satisfaction with the result of the elections in the United States, though he does not believe they are indicative of the attitude of the people on national issues. He is gratified over the Republican victory in Kentucky, although he expected it, and is pleased with the result of the contest for the mayoralty of Cincinnati.

He is also pleased that he is able to carry out his original plan of travel. He has received, through the United States consul at Vladivostok, the assurance of the Russian government that the recent disturbances there will have no effect on his plans. The secretary will sail at noon Sunday on the flagship Rainbow, as the guest of Rear Admiral Hemphill, and will reach Vladivostok in time to take a train on the Siberian railway Nov. 19.

BOLD ARMED BANDITS

Terrorize a Town and Rob a Bank—Citizens Kept Back by a Fusillade of Shots.

Canova, S. D., Nov. 8.—Seven armed bandits held up this town. They blew the safe in the Interstate bank and secured $6,500, making their escape an hour later without leaving the slightest clue. While two bandits worked at the bank the others guarded the alleys and streets. The occupants of a hotel across the street were aroused by the explosion, but the robbers opened fire and drove them back, threatening to kill the first one who appeared. The hotel was riddled with bullets.

Where lights were burning in homes the bandits, at the point of the gun, forced the owners to extinguish them. The raid on the bank badly crippled the concern for the time, but the loss is covered by insurance, and wealthy residents went to the bank's aid and the embarrassment was tided over.

RUSSIAN "GRAFTER" PUNISHED

Dismissed from Office and Ordered to Make Restitution of More Than $250,000.

St. Petersburg, Nov. 8.—M. Gurko, vice minister of the interior, who was implicated in the great grain scandal during the famine relief operations of 1906, and who was placed on trial before the senate as a high court of justice, has been found guilty of malfeasance, sentenced to dismissal from office and ordered to make restitution to the amount of over $250,000.

Through an illegal contract M. Gurko made a deal with an irresponsible individual named Lidval to supply all the grain to the famine-stricken provinces and advanced him $400,000 without security.

Voting on a Strike Question.

Peoria, Ill., Nov. 8.—A poll of those firemen and engineers employed on the Missouri Pacific railroad who are members of the Brotherhood of Locomotive Firemen and Engineers has been begun on the question of striking. The controversy is over the claims and grievances of engineers who belong to the firemen's brotherhood.

Ten Killed by an Explosion.

Douglas, A. T., Nov. 8.—A terrific powder explosion occurred near Necozari, A. T., and ten men, probably most of them Mexicans, were killed. The explosion occurred on the narrow gauge railroad that goes from Necozari to the mines near Bisbee. The powder that exploded was in two cars.

Farman and His Aeroplane.

Paris, Nov. 8.—Henry Farman, the aeronaut, has made a new record with his aeroplane. He flew a full kilometer (about six-tenths of a mile), describing a huge "S" in the air. He now has his machine under perfect control and appears to be able to remain in the air at will.

NEWS FACTS IN OUTLINE

During the year ended June 30 last 5,000 persons were killed and 76,286 hurt on railways in the United States, an increase of 10,352 casualties.

It is reported at Pittsburg that within thirty days $56,000,000 worth of new steel rails will be ordered of the mills in this country.

The losses by fire in the United States and Canada during October aggregated $13,350,270.

To stop the drain of gold the Bank of England has raised its discount rate to 7 per cent.

The navy department will accept a bid of $3,210 for the obsolete sloop of war Saratoga, built in 1842.

President Roosevelt, in a statement issued at Washington, declares he regards the result of the elections as extremely gratifying.

Ex-President Tomas Estrada Palma, of Cuba, has declared in favor of United States control of the island.

The British Board of Trade October statement shows an increase of $25,426,000 in exports, $5,000,000 of which was in coal. Imports increased $15,125,000.

Two hundred and fifty Brussels weavers at the Bigelow Carpet mills, Lowell, Mass., have struck on account of wages.

By order of the board of directors of the institution the Woods' National bank at San Antonio, Tex., has suspended. The bank is said to be solvent.

L. C. Hull, of Brazenose college, Oxford, Eng., a Rhodes student from Michigan, again has been successful in field athletics. He won the 100-yard dash easily in 10¾ seconds.

SPEECH BY WHITELAW REID

Tells a British Audience That Trade Is Not Philanthropy—Jingo Is Pernicious, He Says.

Nottingham, England, Nov. 8.—Whitelaw Reid, the United States ambassador, delivered a speech on Anglo-American trade relations at a dinner here given by the Nottingham Chamber of Commerce, of which he was a guest. Referring to the amount of trade carried on between the United States and Great Britain Reid said;

"Neither of us is trading with the other out of benevolence or philanthropy; we are doing it on both sides mainly because we think we are thus getting the most for our money. This being the case should not he who for spleen or petty political demagogism utters a word, or does an act, to interrupt the present friendly relations between such customers be characterized as one of the most disagreeable as well as one of the most pernicious of public enemies."

LUSITANIA HAS ARRIVED

She Carries $10,000,000 Gold and Adds Another Record to Her Achievements.

New York, Nov. 8.—With $10,000,000 in gold in her strong-box and a new trans-Atlantic record written in her log the Cunard turbiner Lusitania steamed past Sandy Hook at 1:40 a. m. today. The west-bound trip was made approximately in 4 days, 19 hours and 10 minutes. The exact time can only be known from the official reckoning. Her hourly average was a little better than 24 knots an hour and she has probably beaten the record about 40 minutes.

The former western record of the turbiner, completed Oct. 11 last, was 4 days, 19 hours, 52 minutes. The average speed on that trip was 24 knots an hour for the distance of 2,781 miles. The best day's run was 617 knots. The Lusitania fought out the last lap of her race against time in the teeth of a southwest gale.

Still Believes Katzenbach Elected.

New York, Nov. 8.—Robert S. Hudspeth, chairman of the New Jersey state Democratic committee, says he believes Frank S. Katzenbach, the Democratic nominee, has been elected governor of that state by a clean majority. The returns as made public show J. Franklin Fort, Rep., elected by 7,357 plurality.

Robbers Are Disappointed.

St. Paul, Nov. 8.—Cracksmen blew open the safe in the vault in the accountant's office at the University of Minnesota, being evidently under the impression that the $28,000 taken in at the Minnesota-Chicago foot ball game was still in the safe. It had been removed, and the robbers got $5.

Low Price for an Exchange Seat.

New York, Nov. 8.—A seat on the New York Stock Exchange has been sold for $60,000, the lowest price recorded since 1904, when a seat was disposed of for $57,000.

Specialization.

Once upon a time not many years hence perhaps a man being seized with a sudden and violent pain hastens to a doctor for relief.

"Where is the pain?" asks the doctor.

"Right here," groans the man and lays his hand on the afflicted part.

The doctor opens his case of instruments and takes therefrom several delicate compasses and a number of finely graduated tapes. With these he proceeds to make precise and elaborate measurements, stopping at frequent intervals to set down a great many figures on a sheet of paper.

"What are you doing?" cries the man at last, for his pain is all the time increasing.

"Of course I shall make very sure first of all, that the location of the difficulty brings it within my specialty. Do you take me for a quack? You deserve to have been born a thousand years ago!"—Puck.

Diplomats Discuss Tariff.

Washington, Nov. 7.—Secretary Root discussed the question of the adjustment of tariff cases between the United States and France with Ambassador Jusserand and Secretary Cortelyou. The French ambassador was a proposition to submit to this government, but before it is revealed there will be exchanges betwen the two governments.

OBITUARY OF W. J. MOSSHOLDER

FUNERAL WILL BE HELD SATURDAY AT EMANUEL CHURCH IN SOUTH DIXON.

William Jacob Mossholder was born in South Dixon, Ill., February 27, 1869, and died at the same place November 6, 1907, aged 38 years, 8 months and 9 days. His death was due to tuberculosis, from which he suffered about a year. He was able to be about and attend to his business until a few months before he died.

In 1891 he was married to Miss Hattie Rhodes, who died a short time after their marriage. In 1897 he was married to Miss Mary Fellows, who survives him. Since his second marriage he has farmed his father's place in South Dixon and at farming he was a very successful man. He was one of the "Billy Sunday converts," and an official member of the Emanuel Lutheran church of South Dixon. He was also at one time a school director in his district.

Mr. Mossholder had a large circle of friends and was always regarded as a leader among his friends. There remain to mourn his departure four sons, Paul, Lawrence, Royce and Forrest; one daughter, Ruth; his father, Nicholas Mossholder; one sister, Fannie; one half-brother, Chas; one aunt, Mrs. Levi Heckman, and one uncle, William H. Mossholder, all residents of Dixon and vicinity.

The funeral will be held Saturday morning at 10 o'clock at the house and at 10:30 at Emanuel church in South Dixon.

LEE CARPENTER IN CRITICAL CONDITION

CHILD'S RECOVERY FROM NEAR DROWNING IS SLOW—AMBOY ITEMS.

Amboy, Ill., Nov. 8—Lee Carpenter, the two year old son of Mr. and Mrs. Geo. L. Carpenter, who fell into the creek Tuesday and was nearly drowned, seemed to improve for a time after he was resuscitated and it was thought he would recover, but on Wednesday he was taken with spasms, and his condition is very uncertain. It is thought that he probably fell from the sidewalk into the creek, a fall of several feet, and was hurt as well as nearly drowned. The sympathy of the community is with Mr. and Mrs. Carpenter in their severe affliction.

Woman's Club Met.

The Woman's club met last Monday with Miss E. S. Wilcox at her home on East Main street. A large number was in attendance and a very enjoyable afternoon spent. The program was given up in greater part to a study of birds. Facts observed or learned about birds were given as responses to the roll call, and the bird study was conducted by Miss Cornelia Badger. She presented a paper on "Our Winter Birds," full of points of instruction and delight. A number of selected items were read, chosen to prove the inestimable value of birds to the farmer and to show the progress being made in this country in the work for the care and preservation of birds, and the great need for these efforts which are being made to save the birds.

Miss Harriet Vaughan presented a report of the meeting of the State Federation of Woman's clubs held recently in Bloomington. This report was of much interest. Two musical numbers gave variety and added pleasure to the occasion. There was a piano duet by Mrs. Geo. L. Carpenter and Mrs. Chas. E. Ives, and a vocal solo by Mrs. S. D. Frost.

The next meeting will be held on November 8 at the home of Mrs. J. W. Ayers.

Lecture Next Wednesday.

"Four Faced People" is the subject of the lecture to be given next Wednesday evening, November 13, in the opera house, by Dr. Dent Atkinson. This is the first of the series to be given under the auspices of the Woman's club. Dr. Atkinson comes highly recommended as a lecturer and it is hoped that a large crowd will greet him.

Catholic Fair Draws.

The Catholic fair is running this week, and drawing large crowds each evening. Wednesday evening the Walton people were given entire charge of arrangements and Thursday evening the Knights of Columbus took charge, furnishing the program and amusements, and providing and serving the supper. The fair will probably close on Saturday evening.

W. C. T. U. Meeting.

The regular meeting of the Woman's Christian Temperance Union was held this (Friday) afternoon at the home of Mrs. Louisa Vaughan, on Plant street. An interesting program was given.

Personal News Items.

Mrs. J. D. Durr of Dixon visited with friends here the first of the week.

Mr. and Mrs. L. B. Searles went to Chicago Tuesday morning for a few days.

Miss Helen Stone of Chicago is a guest at the J. H. Ayers home on Plant street.

Mr. and Mrs. John Lynch returned last Saturday from Hot Springs, Ark.

Miss Maud Shaw left Thursday for Aberdeen, S. Dak., where she will spend the winter with her uncle, Rev. Thos. Dent.

A union prayer meeting was held Thursday evening in the Congregational church, the three churches uniting in the service.

The ladies of the M. E. church will hold an exchange of home made cooked articles on Saturday, November 9, in the American Express office.

Mr. and Mrs. Jared Slauter left Monday morning for Syracuse, Ind., for their winter's sojourn with the family of their son George.

Dr. L. R. Trowbridge and wife are now located in Amboy, both practicing osteopathists. They have rented the office rooms recently occupied by Dr. N. F. Felker.

Press of State on Direct Primary Law

What the legislature will do it is not possible to predict. What it ought to do is another thing. It ought to pass a direct primary election law, plain and simple in its provisions, where the candidate for an office having the most votes shall be nominated. That is what the Illinois legislature ought to do.—Freeport Journal.

◆ ◆ ◆

The governor has recommended direct primary legislation and a bill is now before the house which, if adopted, will give the people a chance to vote directly for candidates and committees and delegates and render conventions unnecessary. This is the sort of a law the people demand and should have.—Whiteside Sentinel.

◆ ◆ ◆

The people favor a primary election law in order that party nominations might be made by the executive action of those who affiliate with the political party for which the nominations are made. They desired a primary election law that would insure honest primaries at which the voters could record their choice of nominees and thus prevent political machines and political dictating who the party nominees should be.—Decatur Herald.

The republicans of Rock Island and citizens of other parties indulge the hope that Governor Deneen will include in his message urging the enactment of a new primary election law a recommendation for a measure honest primaries at which the nomination of municipal tickets by direct primary elections.—Rock Island Union.

◆ ◆ ◆

There is no mistaking the sentiment of the people, especially in Richland county, as to a primary law. They want a primary at which men are nominated.—Olney Republican.

◆ ◆ ◆

There should be a primary election law that will give to the people the right to nominate as well as elect all officeholders, but a constitutional convention should be called and a constitution adopted that will meet with present conditions.—Sandwich Argus.

◆ ◆ ◆

It looks like a direct primary law with a vengeance. The house has said so most emphatically, and the senate will have to say so or there will be a howl clear from Waukegan to Cairo.—Elgin Courier.

DEMENT TOWN DOINGS

Quiet this morning.

Hicks wanted rain this month and plenty of it. That may be what Hicks wants, but cut out the avenue.

Horrigan—Plenty of coal at the same old prices. Ten cars of both kinds in the yards.

Who was the person who sent the pretty school teacher that dun? That is the limit.

Clifford Wicker, the bright young clerk at Jones' grocery store, will leave tomorrow for a visit with relatives at Cedar Rapids.

Dan Monahan of Warren is visiting his mother-in-law, Mrs. Kate Turner. Mr. Monahan is now sole owner of Warren's best restaurant.

The collar is in the wash.

Seriously, now, Dementtown is in need of a good drug store. Here's a chance for some young business man. A drug store properly conducted would be a gold mine on the avenue.

Ole Peterson and August Anderson, who have been doing constructing work all summer, have come in and are again in charge of their respective sections on the Northwestern.

Did you see Madge at the fair last night? Ask Richard that question and then watch him smile.

Ernie Suggett—Present.

The tin cup is still at its place, but somewhat battered.

Wouldn't it make you feel mean to dream you had a new switch engine and then have to go to work with the same old goat? "What's the use of Dreaming?"

All merchandise was on time this morning.

There is a new phonograph on the avenue. What will be next, a nickle theatre?

RELIGIOUS MOVEMENT IN WEST

MODERN PENTECOST DECLARED TO HAVE STARTED IN THE APOSTOLIC FAITH.

I have been requested to write a brief synopsis of this "movement" which now encircles the globe.

During the late winter of 1906 a company of God's Saints in Los Angeles, Cal., determined to fast and "tarry" for the same power and manifestation that the disciples had on the day of Pentecost, at Jerusalem.

They were simple hearted Ethiopians, and wanted God's best for His children.

After ten days of heart searching and going down before God, on Thursday evening before Easter, the fire fell. They were of one accord, and as at Jerusalem, so here they began to speak with other tongues, and to magnify God with great rejoicing. One young sister, who knew nothing of music, went to the piano and sang the unknown song they sing in heaven, something so beautiful and yet unwritten and unheard before. The news soon spread over the city that a modern Pentecost was falling and the people began to come, until soon the cottage could not accommodate the crowds, and a building was secured on Azusa street (an old barn of a place, with sawdust on the floor) and here God's revival swept over hundreds, nay, thousands here met God in Pentecostal power on Azusa street. They came from all over the world, missionaries came from their fields of labor, ministers of every sect, and no sect, and none who really yielded their all to God went away disappointed.

The languages of Africa and Japan were identified by missionaries, as well as the languages of all nations are heard in these wonderful meetings. Not only are tongues a feature, but wonderful cases of bodily healing, casting out of demons from those possessed, healing of insanity in many cases, especially in Portland, Ore., where people were carried from the asylum and instantly delivered. There are at a low estimate 20,000 people now speaking in other tongues throughout the world, in all lands, and the work is evidently in its infancy, but is spreading with great rapidity, for the time is short until Jesus comes, and what is done must be done quickly. A paper "The Apostolic Faith," is published from Azusa street (312) Los Angeles, and sent out free on application for anyone who would keep in touch with the work. God has used Mr. Seymour mightily as His representative in leading this movement in Los Angeles. He is a very humble man of God, but full of faith and of the Holy Ghost.

This work is already being counterfeited by the Devil, but the genuine is here to stay. I will gladly answer any questions concerning this work.

Respectfully,
MRS. H. M. KELLERMAN,
In Charge of Apostocil Mission,
1012 Chestnut St,
Long Beach, Cal.

EDWARD JONES IS RECOVERING FROM BURNS

Edward Jones, son of Mrs. Cecelia Jones of East Second street, one of the three boys who were the victims of a severe burning Monday evening, is recovering nicely from the burns. Edward was burned more severely than either of the other two boys, Gerald Jones and Harry Blackburn, he having suffered severe burns about the face and hands. The boy's eyebrows were completely destroyed by the explosion, and the hair on his forehead was entirely burned away.

It is expected that he will be fully recovered within a short time unless complications set in. The attending physician fears that the inhalation of the gas which the boy breathed will have a serious effect, and is taking anticipatory measures to relieve a possible contingency.

CAR JUMPED TRACK.

A short while before noon today a city car in charge of Motorman Squires jumped the track at the corner of First street and Galena avenue and hit a telephone pole, knocking it to one side about four inches. The car was slightly damaged.

SOCIAL HAPPENINGS

PAST AND PROSPECTIVE

Leave your order for engraved calling cards, wedding or reception invitations at this office.

Mrs. Arthur Hill will entertain a few friends this evening.

Mrs. E. A. Sickels is entertaining with a five o'clock tea this afternoon for Miss Katherine Pettibone of Polo.

Miss Florence Noble is entertaining with a thimble party this afternoon for Mrs. Arthur Hubbell and Mrs. Fred Rosbrook.

The Kendall club will hold a special meeting tomorrow afternoon at the home of Mrs. W. S. Block, North Dement avenue.

Mrs. A. B. Whitcombe is entertaining St. Catherine's Guild of St. Luke's Episcopal church this afternoon.

The S. F. O. club was entertained after school this afternoon by Misses Frances and Sue Patrick, at their home on East Boyd street.

Don't forget the Kendall club entertainment at the Star Electric theatre on Peoria avenue tonight. Each ticket purchased will be one step more for good. The young ladies get a percentage of the receipts.

Tonight Harold, son of Mr. and Mrs. A. A. Rowland of East Second street, will entertain six of his young friends at the nickle theatre and afterward a supper will be enjoyed at his home in honor of his eighth birthday anniversary.

The Woman's Home and Foreign Missionary society of Zion Lutheran church held their annual thank offering in an all day session at the home of the pastor, Rev. W. H. Hilbish, 609 Galena avenue, on Thursday. A sumptuous dinner was partaken of heartily ,after which a fine program was carried out. A neat sum was received for the missions. The day was well spent and all returned to their homes rejoicing.

Hooker-McGinnis.

At eight o'clock last evening in the presence of relatives and intimate friends to the number of sixty, Miss Grace Hooker, daughter of Mrs. Julia Hooker, 904 Peoria avenue, was united in marriage at her home with Wm. R. McGinnis, son of Michael McGinnis, 1023 Peoria avenue, Rev. S. S. Cryor officiating.

The bridal party entered the parlor to the music of Lohengrin's Wedding March, played by Mrs. Edward Hooker. The bridesmaid and best man, Miss Myra Bachman and Reid March, preceded the bride and groom to the bay window, where under an arch of smilax and pink and white asters the wedding ceremony was performed. The bride was simply yet elegantly gowned in white silk batiste and carried bridal roses. Miss Bachman also wore white mull and carried pink roses. The parlors and dining room were decorated with smilax, pink and white asters and clematis. In the dining room, pink and white carnations were also in evidence in the decorations. After an informal reception an elaborate wedding supper was served, the tables being waited on by Mrs. Fred Eisile of Sterling, Miss Hattie Echternach of Sterling and the Misses Ruby March and Stella Bachman. Miss Julia Talty caught the bride's bouquet.

Mrs. McGinnis has always resided in Dixon and has many friends here. She is a member of the Presbyterian church and is always an active member in the various societies of the church, being esteemed by all by reason of her sweet disposition and kind manner. Mr. McGinnis is in the real estate business with S. E. Johnson and Mr. and Mrs. McGinnis will make their home at 904 Peoria avenue. This morning they left on a wedding trip of about a week in the South.

Following are the names of out of town guests: Dr. and Mrs. John McGinnis and daughter, Miss Velma, Aurora; Mr. and Mrs. C. R. Hussey, Franklin Grove; Mr. and Mrs. Cruse, Sterling; Mrs. Fred Bailey and daughter, Marie, Mendota; Mr. and Mrs. Geo. March, Reid March and Miss Ruby March, and Hale Hartzell, South Dixon; Harvey McGinnis, Champaign; Mr. and Mrs. Jacob Echternach, Miss Harriet Echternach and Mrs. Fred Eisile of Sterling.

Sporting Notes.

DELMARCH LEADING SIRE.

Delmarch, 2:11½, formerly owned by George Ingraham of this city, is listed as the leading sire of new 2:10 performers for the season just closed. Delmarch sired the three sensations of the season, Tommy H., 2:07½; Rollins, 2:08 and Davy K., 2:08½, and with these three to his credit he stands far above the sires of the season's trotters.

CITATION CHAMPION MARE.

Citation, 2:03¼, owned by Judge Cartwright of Oregon, is generally accorded the position of champion mare of sidewheelers of the season, having won thirteen races, and suffered no defeats whatever. In looking back over the lineage of the Oregon mare it will be found that she is the fastest female descendant of Electioneer in the direct line, and of her dam, Norvalson, also.

EXHIBIT SYSONBY SKELETON.

Prof. S. H. Chubb, a New York expert in the Baleontological department of the Museum of Arts, is at work mounting the skeleton of the once famous Sysonby. Jas. R. Keene who owned the great horse, has given $2,000 for the purpose of preparing the skeleton for exhibition. During his career Sysonby won over $200,000 in money. His death took place as a result of blood poisoning, the big colt passing in his checks June 17, 1906.

EXPECT A LIVELY GAME TOMORROW

The Dixon Union High School football squad took a workout last evening in preparation for the game which will be played against the alumni team tomorrow afternoon at Athletic park. The high school boys are determined to put one over on their elders and are working out daily to get in shape to stop them. According to a member of the alumni team the old heads will be there with as much ginger as ever, and will teach the youngsters a few points of the game that have not yet been revealed to them.

In any event, the game will be an interesting one and will be well worth seeing. The graduates will have a strong lineup in the field and will work hard to beat the boys, although it is hard to say that the better seasoned school players will submit to a defeat. Soper, Warner and O'Malley in the backfield last evening showed plenty of speed in signal practice, and the formations of all the plays were excellent. Girton has been shifted to tackle and Austin to guard, while Sterling, last year's crack tackle, will be on the left side of the line. Sterling is just rounding into shape after an extended illness, and by tomorow he should be in condition to go through a hard game.

It is expected that a large number of the old fans will be out to watch the former stars work, and preparations have been made for a good crowd. The game will be called at three o'clock sharp.

Dopey Notes.

Hal Chase has signed with the New York Highlanders for the coming season, thereby setting at rest rumors that he will go to California to engage in business.

A South Bend man has offered $3,000 for the South Bend franchise in the Central league, and the offer has been taken under advisement. It is understood that another offer of something near $5,000 is in readiness.

Jake Stahl, who since leaving major league ball has been running a semi-pro team in Chicago, has signed with the New York Highlanders for next season. Stahl's admirers are glad to see him back in the game.

NINE CANDIDATES FOR MODERN WOODMEN

The Modern Woodmen lodge held a very good meeting last night. Nine candidates were elected to take the work at the next meeting. It is desired that as many Woodmen as can will attend the Mossholder funeral in South Dixon tomorrow. The services will be held at 10 o'clock at the house and 10:30 o'clock at Emanuel church.

MEN GOING BACK TO WORK AT HENNEY'S

The layoff at the Henney Buggy company shops which took place last week, has proved to be only a temporary one for about sixty men who were laid off have resumed work at their old positions. The officials of the factory are placing men whom they laid off on the pay rolls each day and it is only a question of several days until all of the men will be back at work.

ELKS PORTER LEAVES.

Louis E. Clay has resigned his position as porter at the Elks club. Mr. Clay, who is now at Gallatin, Mo., visiting his father who is ill, wrote to W. C. Jones, a member of the Elks house committee, that he would not return to Dixon and resume his duties as porter. Mr. Clay says that he has an opportunity to attend school and he desires to do this.

L. S. Emmons of Taylor, Ogle county, was here today on business.

M. J. Kent and family of Amboy were here today calling on friends.

A. J. Beynon of Rockford was here today on business with City Clerk Blake Grover.

George Meurer, wife and mother of East Grove were here today visiting friends.

W. A. Rhodes and wife of Sutherland, Iowa, arrived this morning for a few days' visit at the home of Mrs. Rhodes mother, Mrs. D. D. Decker, of North Dixon.

John Burke sr., Harry Burrs and Bert Smice are completing a job of plumbing in Franklin Grove for the C. G. Smith Plumbing company.

George Floto and wife are down from the Kingdom today.

Mrs. Robert Doles of Minneapolis is a guest at the home of Wm. James. In a few days Mrs. Doles will leave for Champaign, Ill., where she will make her future home.

"I Want the Proof" YOU SAY.

When told that nervous exhaustion and prostration are cured by Dr. A. W. Chase's Nerve Pills, and we refer you to many thousands of cases similar to the one reported below.

Because you do not look sick and are not suffering great pain, and because they do not realize your awful feelings of weakness, helplessness and discouragement, your friends fail to show much sympathy for you, and most doctors are simply helpless in the face of exhausted nerves.

Dr. A. W. Chase's Nerve Pills

Will cure you just as rapidly as new blood can be formed and new nerve force created, for they cure in Nature's way, by building up the nervous system and for this reason you can be absolutely sure that each dose is of at least some benefit to you. WHAT HE DIDN'T WANT

That Is What Governor Deneen Obtained from Attorney General Stead.

TO THE COURT FOR THAT CANAL

Osteopaths Can Assume the Title of "Doctor"—Danville to Limit Saloons—State Items.

Springfield, Ill., Nov. 8.—The decision of the attorney general in the navigability question put to him in the deep waterway case is the direct opposite opinion the governor and the governor and the friends of the deep waterway hoped to receive. Besides holding that the legislature is not omnipotent, and cannot make navigable streams by statute, Stead declares that a floatable stream—that is a stream which will float logs—is not a navigable one.

Only Chance Is the Courts.

It is now plain that Governor Deneen cannot wage his deep waterway fight in the legislature, but must carry it into the courts, and, if possible, obtain a judicial decision declaring the Illinois and Desplaines rivers navigable.

Rights of Osteopaths.

Springfield, Ill., Nov. 8.—Attorney General Stead in his opinion rendered to Dr. J. A. Egan, secretary of the state board of health, holds that an osteopath is not guilty of unprofessional conduct within the meaning of the statutes by styling himself a "doctor," and that therefore the state board of health cannot revoke his license to practice. The attorney general holds that the term "unprofessional conduct" means dishonorable conduct in the practice of his profession, such as malpractice. The statute provides that only physicians who practice medicine and surgery in all its branches may style themselves "doctors," but there is no penalty for adopting the term by persons who do not so practice.

Two New Trolley Lines Licensed.

Springfield, Ill., Nov. 8.—The Woodstock, Marengo and Sycamore Electric Railway company has been licensed. The capital stock is nominally $25,000. A road is authorized from Woodstock, Ill., through the counties of McHenry and DeKalb to Sycamore, Ill. A license to incorporate also has been issued to the St. Louis and Staunton Railway company to construct a road from Edwardsville, Ill., to a point in or near Staunton, Ill.

WOULD LIMIT THE SALOONS

Even the Sellers of Intoxicants Favor Cutting the Number Nearly in Half.

Danville, Ill., Nov. 8.—The advance which the temperance cause has made in Danville in the last year is said to be directly responsible for legislation introduced at the last meeting of the city council. The ordinance in question provides for the limiting of the number of saloons in the city to fifty-nine. At present there are ninety-four saloons.

The saloon men favor the measure for the reason that their business is so slack they believe it would improve if the number of drinking places is restricted. The temperance forces favor the ordinance for the simple reason that it would do away with nearly two score saloons.

Illinois Militia Commander.

Springfield, Ill., Nov. 8.—Brigadier General Edward Young has been appointed major general of the Illinois National Guard, in command of the entire state military force. The appointment was made officially by Adjutant General Scott by direction of Governor Deneen. The appointment of General Young was wholly unexpected and is made to fill the vacancy caused by the resignation of Major General Geo. M. Moulton.

Fell in Love with Her Voice.

Greenville, Ill., Nov. 8.—A telephone romance that started only a few days ago has just culminated here in the marriage of Miss Grace Seeger, a telephone operator of this city, and Samuel C. Wolf, cashier of a coal company. Miss Seeger was for a long time a telephone girl in the central office of the telephone company. When Wolf heard her voice over the wire a few weeks ago he fell in love with it.

Steel Worker's Fatal Fall.

Chicago, Nov. 8.—John McClellan, 38 years old, steel worker, was instantly killed when he slipped on a platform of the eighth floor of the Occidental Manufacturing company building, in course of erection at 225 Washington street, to the second floor. On the third floor he crashed through a flooring of two-inch plank.

They Quarrelled Over Whisky.

Carmi, Ill., Nov. 8.—Following a quarrel over a bottle of whisky, "Red" Franklin, a miner, aged 30, shot and instantly killed James McClintock at Carrier Mills, south of here. Franklin was arrested and placed in jail to await the action of the grand jury.

Two Men Escape Death.

Danville, Nov. 8.—A switch engine in the C. and E. I. yards here struck a buggy containing Sherman Makenson, of State Line, Ind., and Fred Williams, of this place. Both escaped serious injury.

WOMEN'S WOES.

Dixon Women Are Finding Relief at Last.

It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must "keep up," must attend to duties in spits of constantly aching backs, or headaches, or dizzy spells, bearing down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney ills. Kidneys cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained. Read of a remedy for kidneys only helps and cures the kidneys and is endorsed by people you know.

Mrs. L. Sindlinger of 220 West Chamberlain street, Dixon, Ill., says: "I was a sufferer from severe kidney complaint for a number of years The weakness across the small of my back and hips, and the lameness in my limbs was such that I had to lie down quite frequently, and when I tried to get up I would be stiff and tion to this my kidnye secretions gave me much annoyance. They were far too frequent, both day and night, very dark in color and of a strong odor and contained a red sediment like brick dust. My attention was called to Doan's Kidney Pills as a remedy for this trouble and I procured a box at Leake Bros.' drug store. I made a statement at that time that oDan's Kidney Pills cured me entirely, and I am glad to state now that I have had no return of the trouble, and I owe it all to Doan's Kidney Pills."

DESPLAINES RIVER NAVIGABLE?

Attorney General Stead Says That Is a Question of Fact.

Can Be Settled in the Courts Only—Legislature Cannot Make a River Navigable by Statute.

Springfield, Ill., Nov. 8.—A heavy blow has been dealt the deep waterway advocates in an opinion prepared by Attorney General Stead at the request of Governor Deneen. The opinion deals with the navigability of the Desplaines river and the state's rights in the stream. Briefly, Stead interprets the law on the subject as follows:

How He Interprets the Law.

"The navigability of the Desplaines river is a question of fact, and not of law. If the Desplaines river is not navigable in fact no action will lie by the state to remove or prevent the completion of the dam now in course of construction by the Economy Light and Power company, of Joliet, at Dresden Heights. The Economy company holds a valid lease to state property at the site of the Dresden Heights dam, and may use this land for the construction of the dam even to the extent of flooding the same."

Deep Waterway Is Dead.

Under this ruling prospects of a deep waterway go glimmering unless the people vote an expenditure of $20,000,000 to deepen the waterway with the knowledge that the power created will yield millions of dollars to the Economy company instead of the state. This is considered so remote, however, that there appears small prospects of even at attempt on the part of the state to have the question passed upon.

Outlay Is Too Stupendous.

According to the Stead opinion, in the judgment of lawyers who examined the document, the only chance for the state to acquire title to any water power along the channel of the proposed ship canal is to buy outright at condemnation sale the riparian rights of abutting land owners. The outlay required for this would be so stupendous that such a plan probably would be dismissed without serious consideration.

UP TO THE UNITED STATES NOW

Questions Asked Stead and Synopsis of His Reply.

It appears now to be up to the United States government to proceed with the deep waterway movement if the dreams of the promoters of the lakes-to-the-gulf deep sea canal are to be realized. While it was considered a reasonably easy proposition to secure the approval by the voters of an expenditure of $20,000,000 on the waterway so long as there was a probability of the return of the outlay through the sale of water power, no one here expects the people to consent to the proposed bond issue when the principal sum probably would not pay the damages incurred, let alone turn a shovelfull of dirt.

The Dresden Heights dam will not interfere with the physical construction of the deep waterway, provision having been made for a fourteen-foot channel. This meets the requirements of the war department and harmonizes with the federal scheme for the deep waterway development. The fact that the communication addressed by Robert Shaw Oliver, assistant secretary of war, to Charles O. Monroe, general manager of the Economy company, expressing approval of the dam plans, was termed an expression of opinion and not a permit is taken as evidence that the Desplaines is not considered by the federal government to be a navigable stream and under its jurisdiction.

Three questions were submitted to the attorney general for his opinion: First—Is the Desplaines river a navigable stream under the laws of Illinois? Second—Has the state the right to control this river for navigation purposes and prevent the erection of dams thereon which impede navigation? Third—What action, if any, will lie by the state to prevent the construction of the dams by the Economy Light and Power company across this river and across the canal lands of the state?

In reply Stead says as to the first that a stream only capable of floating logs is not navigable, and after stating the requirements of navigability he says the matter is one to be determined by a judicial proceeding. To the second question Stead replies that it depends upon whether the stream is navigable—if it is the state has a right to control it. A stream that is not navigable cannot be made so by legislative enactment. To the third question he replies that it also depends on the navigability of the stream—if it is "navigable" the state can prevent its obstruction.

STOMACH IS SEAT OF HUMAN LIFE

New Theory Advanced by Young Man Is Spreading Over Entire Country.

L. T. Cooper's theory concerning the human stomach, which he claims to prove, with his new medicine, is being given more respect and comment every day.

Cooper claims that 90 per cent. of all ill health is due to stomach trouble. When interviewed about his theory recently he said: "Stomach trouble is the great curse of the 20th century so far the civilized races are concerned. Practically all the chronic ill health of this generation is caused by abnormal stomachic condition. In earlier days, when the human race was closer to nature, and men and women worked all day out of doors, digging their frugal existence from the soil, the tired, droopy, half-sick people that are now so common, did not exist.

"To be sure, there was sickness in those days, but it was of a virulent character, and only temporary. There was none of this half-sick condition all of the time with which so many are afflicted nowadays.

"I know positively that every bit of this chronic ill health it caused by stomach trouble. The human stomach in civilized people today is degenerate. It lacks tone and strength. This weakness has gradually come through a sedentary existence. I further know that few people can be sick with digestive apparatus in perfect shape. The sole reason for my success is because my New Discovery medicine tones the stomach up to required strength in about six weeks' time. That is why I have had more people come and thank me wherever I have gone to in roduce my medicine, than I have had time to talk with."

Among the immense numbers of people who are now strong believers in Cooper's theory and medicine is Mrs. M. E. Delano, a prominent resident of the suburb of Brookline, Boston, Mass. She says: "For several years I was broken in health caused primarily by stomach and nerve troubles. I gradually became worse until recently I was compelled to go without food for days at a time. I had sour stomach, palpitation of the nerves of the stomach and heart, dyspepsia, and extreme nervousness. I suffered terribly with insomnia, and my liver, bowels and whole system gradually became deranged I felt instant relief the first day I began this Cooper medicine I now feel like a new being. Today I walked all over town, shopping—something I have not done for years.

"I make this statement wholly from a sense of duty. I feel I owe it to anyone who might find relief and renewed happiness as I have done."

The record made by the Cooper medicine is astonishing. We will take pleasure in discussing it with anyone who wishes to know about them.—C. M. Campbell & Son.

of net, abundantly trimmed. There are no long sleeves as yet in these, and there are no short sleeves in the tailored linen blouses.

Braiding as a trimming is one of the season's strongest features. In gowns for semidress the tailors show remarkable manipulation of the material to secure original stripe effects. They are aided, it is true, by the materials themselves, the newest showing stripes. The effect of black lines of braiding on nattier blue, on green or on a rich wine red is both new and pleasing.

Women are wondering how they are going to manage to wear more than one hat this season, when chapeaux are so expensive. But all is not lost, for the bargains are yet to come in all sorts of feathers and plumes.

Mohair is to be modish for indoor wear, and the illustration shows a charming gown in this material. It is a beautiful shade of orchid, with trimmings of velvet in a darker color, combined with string colored lace.

JUDIC CHOLLET.

FREE PULP AND WOOD

President to Recommend the Abolition of Duty on Those Paper Ingredients.

ALSO OF THE DUTY ON PAPER

Result of a Visit to Him of a Committee of Publishers.

They Allege an Illegal Combine of Paper Makers—Santa Fe Railway Fined $330,000 for Rebating.

Washington, Nov. 8. — A committee of the Newspaper Publishers' association called on the president and invited his attention to the movements of the manufacturers of paper, which the committee declared were conspiracies in restraint of trade. Among the members of the committee were John Norris, of the New York Times; Medill McCormick, of the Chicago Tribune George Thompson, of the St. Paul Pioneer-Press; Delevan Smith, of the Indianapolis News; John Eastman, of the Chicago Journal, and the presidents of the national organizations of the Allied Printing Trades.

President Promises Assistance.

The committee gave the president the facts upon which the statement of the publishers is based, and also a petition from the national organizations of printers, stereotypers, pressmen and etchers, all of which set forth the evidence of a combination on the part of the manufacturer of paper for the purpose of controlling the output, regulating and greatly increasing the price, and otherwise making hindersome regulations governing the source of supply and delivery of paper. At the conclusion of the presentation of the case of the publishers the president indicated that he would recommend to congress the abolition of the duty on press paper, wood pulp and the wood that goes into the manufacture of paper. He also promised an investigation of the paper companies to ascertain if they are violating the anti-trust laws.

What It Means to the Press.

The president's attention was called to what was termed a "conspiracy," by which it was alleged the makers of news-print paper have arranged for an advance of $12 per ton upon the supply of that article for the current year, and for an additional advance next year averaging $10 per ton. This, it was explained, means a burden imposed on the printing industry of the country of $10,000,000 for the present and $19,000,000 for the coming year. The excuse for these advances on the part of the paper makers is the cost of wood and labor have increased. This excuse was met in the argument to the president by the statement that the published report of the largest manufacturer of news-print paper gives the increased cost of material and manufacture, including the expense of administration and sales, at about 64 cents per ton.

TOLD HOW IT WAS DONE

First Step Declared to Have Been a Tariff Tax.

The president was told that the present plan of increasing the price of paper had its inception twelve years ago in a proposition to unite the paper mills into one pool or corporation. The first step in the programme was, it was stated, accomplished when the promoters induced congress to fix a tariff duty of $6 a ton on news-print paper. It is this tariff, it is understood, the president has promised to urge congress to repeal. The next step, which has encountered many delays, has, the president was told, just been consummated by the creation of a combination to exhaust the surplus stock of paper, to cause a paper famine and to raise prices.

The committee told the president that since a conference of eastern and western paper manufacturers was held the first week in September last manufacturers who had previously solicited the business of various newspapers have withdrawn all quotations. Publishers who apply for quotations realize that in some intangible way their supply has been pre-determined, and the price they are to pay also arranged for them. In each case, the statement stated, the paper makers all make bids, but they are at a prohibitory price. He also finds that he has no remedy against the supply of inferior paper. Publishers who make inquiry of one mill find that the others have been advised of that inquiry.

New selling agencies, representing an aggregation of previously independent mills, have merged the output of those mills. The source of supply of numerous newspapers has been arbitrarily diverted from one mill to another without the consent of the publisher. Jobbers who apply to selling agents or to mills for quotations are forced to disclose the name of the customer and the purpose for which the paper is to be used. When this disclosure is made jobbers find that satisfactory quotations can be obtained from but one mill in the country. Mill men and paper salesmen have admitted that an agreed scale had been adopted.

SANTA FE HEAVILY FINED

Railway Mulcted in $330,000 for Giving Rebates.

Los Angeles, Cal., Nov. 8.—Judge Olin Wellborn, in the United States district court, fined the Atchison, Topeka and Santa Fe company $330,000 for rebating. The fine was what the court denominated "an intermediate penalty," the minimum which might have been assessed being $1,320,000 and the minimum $66,000. The court reviewed the case in a written opinion of some length, in which it stated that there were sufficient doubtful and extenuating circumstances to preclude the possibility of a maximum sentence, and yet sufficient intention of wrong doing shown to make impossible a minimum penalty.

The Santa Fe company was convicted on Oct. 11 last by a jury in the federal court of granting rebates to the Grand Canon Lime and Cement company, of Arizona. It was found guilty of all the sixty-six counts charged in the indictment after but an hour's deliberation. The rebates, which were given on shipments of lime and cement and ranged in amount from 35 cents to $15. The company alleged that these amounts were in the form of damages to goods which were allowed after such claims had been regularly presented and proved in each instance.

The court did not take that view of the case, however, and stated that it "was not convinced by any means that these amounts represented bona fide settlements of claims. * * * It is hard to believe that the agents of the corporation did not know that they were violating the law. In any event such ignorance of the law is almost equivalent to a criminal knowledge of it." The defense moved a stay of judgment, and will file a bill of exceptions, and a stay of thirty days was granted. The case will almost certainly be appealed.

DROWNED IN A CANAL

Cabinet Minister of Holland, His Son, a Mayor, with Their Wives—Dense Fog the Cause.

Amsterdam, Nov. 8.—Minister of State Jonkheer van Panhuys; his son, the mayor of Leek, and their wives were drowned while driving, their carriage falling into the canal at Hoogkerk during a dense fog.

Washington, Nov. 8.—Jonkherr van Panhuys, one of the ministers of state of the Netherlands, who was a member of a party drowned at Hoogkerk, was a favorite of the queen and an intimate friend of the family of the Neitherlands minister to Washington, Jonkheer R. de Marees Van Swinderen.

He was 70 years old, was formerly governor of the province of Groiningen and subsequently attained the high post of vice president of the council of state. After retiring from that office he was given the honorary rank of a minister of state, a title bestowed on several men of prominence in the official circles of the country. His son was mayor of a small place called De Leek.

PEACE IN CENTRAL AMERICA

Three Presidents Meet and Agree to Forget Past Differences and Be Friends.

Managua, Nicaragua, Nov. 8.—Presidents Zelaya, of Nicaragua; Davila, of Honduras, and Figueroa, of Salvador, were in conference at Amapala for the purpose of consolidating peace in Central America. The results of their meeting are as follows: They agreed to forget past differences, and declared that fraternal relations existed mutually, and that previous treaties of friendship are in force. They will communicate to the delegates at the approaching Central American peace conference at Washington what has been agreed upon at Amapala.

The three presidents further agreed that they were united in favor of peace in Central America, and they decided to hold a peace congress to follow the Washington conferences, at which delegates from the five republics of Central America shall endeavor to make uniform their respective codes of international law.

San Francisco Returns Complete.

San Francisco, Nov. 8.—The count of the votes cast in the city and county election has been completed. It shows that of the 57,201 ballots cast for mayor, Dr. Edward B. Taylor, the Good Government incumbent, received 28,806; P. H. McCarthy, Union Labor, 17,617; D. A. Ryan, Rep., 8,275; E. L. Regnin, Soc., 1,502. Taylor's plurality over McCarthy is 11,189, and his majority over his three opponents is 411. Langdon, for district attorney, has 14,817 plurality and 13,508 majority.

Heyburn Makes a Protest.

Washington, Nov. 8.—A protest was made to President Roosevelt by Senator Heyburn, of Idaho, against the further deposit of government money with New York banks until these institutions consent to pay the reserves of western banks in cash instead of cashiers' checks. The senator said that crops could not be moved on checks. The president requested the senator to present his views in writing.

Earthquake Loss Was Terrible.

St. Petersburg, Nov. 8.—A dispatch received here from Samarkand by the Official Telegraph agency says that a special representative of a local paper who was sent to Karatarak, in the Hissar district of Bokhara, which was destroyed by a landslide following the earthquake of Oct. 21, reports that 3,400 people perished and only seventy escaped.

South of France Afflicted.

Paris, Nov. 8.—After three days of continuous downpour floods and inundations are again widespread in the south of France. Railroad tracks have been swept away, houses have collapsed, and several persons have been drowned.

MODEL CAPITAL CITY.

Scheme Proposed by Oklahoma to Erect One.

WILL SELECT VIRGIN SITE.

All Public Institutions to Be Grouped In Place Built on Ideal Lines—New State to Employ Architects and Engineers to Lay Out Grounds.

Shall the people of Oklahoma erect an ideal capital city, in which would be grouped all the state institutions, or shall they be distributed over the state in separate locations, as a sort of pap to each section? is a question that is now being agitated throughout the new state, writes a Muskogee (I. T.) correspondent of the Chicago Post.

Argument for the united plan presents the opportunity of building a city that would be the only one of its kind in the world, where every building and its surrounding grounds could be laid out on a plan of absolute permanency and with relation to its surroundings and its contemporary state institutions. This plan, it is asserted, would save the taxpayers of the state $5,000,000, or $25 for each voter in the state.

For the other plan it is argued that certain towns in the state would be given one institution each, and the state would thereby divide its property and extend a certain state interest to the various counties where such institutions were located.

Residents of cities where there are hopes of landing some state building favor the latter plan. The average citizen, who has no favorite town, wants the state buildings centralized under the ideal city plan.

Some of the strongest men in the state are working on the ideal capital city plan. They propose to have the state elect a nonpartisan commission which shall have entire charge of the work of building this city. It is proposed the state shall condemn two or three townships as a site within fifty miles of the exact geographical center and then let the commission select the most advantageous city location out of this prescribed area.

Expert engineers and architects would be employed to lay out the site and place the grounds for each building in a general scheme with the other institutions. Here would be located the state capitol, the penitentiary, the asylum, normal schools, agricultural college, some of the experiment stations, school of mines and other institutions supported or endowed by the state. When all the land necessary for the state buildings should be segregated the remainder could be laid off in town lots and sold for residences or business.

Conservative town site men say that in this manner the state could sell at the first sale $5,000,000 worth of lots, which would be available for the construction of the state buildings. By other plans the taxpayers must pay for the buildings. In addition to this, as the city grew additions could be laid out and sold by the commission, and the state would have a big income from these sales for many years.

In addition to the state buildings, the commission would also control the municipal property. The state would own and operate all street car, light, water, telephone and other municipal franchise properties. As the streets are laid out water and sewer mains, telephone and telegraph wires are to be laid under the streets in conduits, and the street once made would seldom have to be disturbed—in other words, as the city builded it would conform as near as possible to modern methods and requirements.

To carry this plan into effect it will be necessary for the legislature to call an election for the people to vote the needed power to a commission or other body to have charge of the proposition. It is believed that the first state legislature will consider such a call.

The enabling act provides that the state capital shall remain at Guthrie until 1913. This gives five years for a decision as to a permanent capital. This would also give time in which this comprehensive plan of a model capital city could be carried into effect.

Corridor Cars For India.

The East Indian railway intends shortly to put corridor trains, built after the most approved American design, on the Calcutta-Bombay run, and eventually similar trains are to take the place of the present mail trains to Delhi and beyond, says Engineer. The new carriages, which are almost ready, are luxuriously upholstered.

In the Swim.

We've been to see John Drew
And other fine theaters,
The Hippodrome and Hammerstein,
And now we tip the waiters.
Indeed, we've moved into
A neighborhood of rank—
We've done it all since father drew
The money from the bank.

Before the panic came
A phonograph was ours,
And to the park we'd go
To while the Sunday hours.
But now the uplift is
For us—I must be frank;
We're going some since father drew
The money from the bank.

Oh, father has a hat
That's high and shiny black,
And mother wears a toque
That's balanced on her back.
Our noses pierce the air,
We stare at folks quite blank;
We're bloods, we are, since father drew
The money from the bank.

We never rush the can
(We buy it now in cases),
And as for beef and beans,
They make us hide our faces.
For lobster is our dish,
With cheese that's very rank—
Since dear old father drew
The money from the bank.
—John A. Moroso in New York Times.

Where Titles Are Cheap.

The cheapest country for buying a title used to be Portugal. When a man is made a baron or a count there his patent recites the service for which the grant is made. I was once in Portugal, and I had some curiosity to discover what were the services for which an Englishman of my acquaintance had been made a Portuguese baron. I therefore looked the matter up, and I found that it was for having introduced into the country a new tree. There used to be another plan for becoming a baron. It appears that there is—or was then—a convent which once had large possessions. All its tenants were, by the fact of being tenants, barons. But the convent had lost its possessions with the exception of one farm. It had an agent in London. For a very moderate consideration the agent let this farm to a would be tenant. He therefore became a baron and when he resigned the farm to the next applicant he retained the title.—London Truth.

Fake Telephone Calls.

The second day after the new maid came the mistress had company. Just before the callers arrived the maid said confidentially:

"Shall I go out and telephone to you while they are here?"

"Telephone?" exclaimed the mistress "What on earth should you telephone to me about?"

"Oh, anything," responded the maid. "I always did it at the last place I worked and the place before that. The ladies wanted me to. It gave the impression that they were very popular and were overrun with engagements."

But the mistress, remembering many suspicious telephone calls that had interrupted the conversation when she herself had been calling, declined to purchase popularity on those terms.—New York Press.

Fishes That Are Lost.

It is pretty well established that the common mackerel, for example, lays some 50,000 eggs and that out of the number not more than two come to the reproduction stage. Presumably the loss is equally great in the eggs of other fishes. The greater part of this loss occurs, of course, while the young are too small to look out for themselves. By hatching the eggs artificially and maintaining the young until they can shift for themselves it is claimed that in place of one in 25,000 one in a dozen may live to maturity.

Gigantic Clock.

It is proposed to convert the Eiffel tower into a gigantic timepiece, and with that object experiments are now being made, says the New York Tribune. A huge electric sign has been placed on the second platform on the side looking toward Paris. At night this illuminated sign shows the time in gigantic figures, which change every minute. If found practicable these figures will be placed on the top of the tower, so as to be seen from all sides for many miles.

Bank Money Orders

We have been selected by the American Bankers' Association to guarantee their new Bank Money Orders, and are the only Company authorized to furnish such guaranty.

These orders are the newest convenience in sending money. Instead of going to the Post or Express Office, apply for money orders to a bank that is a member of the Association.

Next Monday, November 11th, at the Dixon opera house, Allen Doone, styled "Joseph Murphy's successful successor," will appear in the part of "Larry O'Daly" in his new and successful scenic comedy-drama "A Romance in Ireland," in which the young comedian-singer is said to have scored the hit of his career. The play is a clean, witty comedy of the County Mayo in the picturesque seventeenth century, containing all the delightful characteristics of the Irish but constructed upon distinctly original and novel lines and away from the timeworn themes of the conventional familiar play of its class. The old-time songs and dances; and the quaint costumes and the manners of the ancient regime all unite in making an entertainment well worth witnessing. "A Romance in Ireland" is played in four acts and eight stage settings, and will be enacted by the most evenly balanced company ever sent.

The new twin-city directory which has just been completed gives Moline a population of 12,644 and Rock Island 14,055. Multiplied by the usual 2 1-4, Moline's quota of names represents a population of 28,449, and Rock Island's quota a population of 31,624.

WATCH YOUR TONGUE.

If Furred and Coated, it is a Warning of Trouble to Come.

When it is the morning after the night before you do not have to look at your tongue to know that the stomach is upset, the head is aching with a dull rhythm, and that all the world looks black and dreary.

It may have been lobster Newburgh, Welsh rarebit or some other tasty dish that looked much better at night than the morning after. There is no need to look at the tongue thermometer then for symptoms of trouble. You naturally go to your box of Mi-o-na stomach tablets, and with one of the little relievers bring joy and gladness to the physical system.

The real time to watch the tongue is all of the time. If it is coated with a white fur, or possibly with dark trimmings, even through the stomach does not tell you by the acute pains of indigestion that needs help, yet the coating shows that you are getting into a bad way and that there is need of Mi-o-na.

Mi-o-na is so positive, so sure, so reliable in its curative action upon the stomach that Rowland Bros., the local agents, give an absolute guarantee with every 50-cent box they sell to refund the money unless the remedy gives absolute and complete satisfaction.
